Are you searching for a light weight ATV trailer and still have rugged and dependable features?

Husky Manufacturing's line of **Extreme Duty Freighters** will meet your needs all the way!

SINGLES

Introduced in 1998 as a 4x4 and designed to meet the needs of the average four-wheeler and hunter, this line was expanded in 2000 to include a 4x5 model. Both use the same aluminum construction and the standard steel axle and offroad all-terrain tires. Built light but strong, there's no worry about towability or durability!

SPECIFICATIONS:

TRAILER	INSIDE DIMENSIONS	MSRP
TBS	48"Lx42"Wx21"H 18 CF	\$1100
4x4s	48"Lx48"Wx21"H 19.3 CF	\$1150
4x5s	60"Lx48"Wx21"H 24.1 CF	\$1200

SETNETTER

First built in 1986, this trailer with lower sides was designed for the Bristol Bay setnetters and is an excellent choice for trail or yard use. The aluminum construction and strong steel axle equals durability and strength with a low center of gravity.

SPECIFICATIONS:

TRAILER	INSIDE DIMENSIONS	MSRP
4x5sn	60"Lx40"Wx17"H 19.1 CF	\$1175*

*Shown with optional stake pockets, + \$150

EDF's are an all aluminum tub trailer that is light weight and water tight. No steel frame underneath, no bolts and holes through the tub! Supported by a 2000 lb. steel axle and standard 25x12x9 all-terrain tires, all EDF's are lighter and tougher than other trailers of similar capacities. In production for 17 years, with new models added in 1998 and 2000, EDF's give you the confidence to tackle the big jobs.

EDF's, available in four different tub sizes and three axle combinations, will fit all machines from three-wheelers to eight-wheelers.

ALL PRICES BASED ON 25X12X9 TIRES. SUBTRACT \$25 PER PAIR FOR 22X11X8 TIRES
